

We're Going Green!

Leech Lake Gaming is doing our part to make Earth Day everyday.

We care about our planet & the environment. So in celebration of our Earth Day, on Friday, April 22nd; National Earth Day, we will no longer be using styrofoam cups or containers and have begun switching to LED lighting. Join us in our recycling efforts by utilizing the recycle containers around the casino.

We encourage you to start going green with us!
